The New Light.

On Monday night a number of our citizens called at Mr. Chas. P. Zook's new residence to see the acetylene illumination. All were surprised and delighted with the light. In one room, Mrs. Zook had placed her favorite Rochester lamp. It is an unusually good one, and the room was lit up probably as well as any other room in town is lit. with oil; but the difference between its illumination and that of an adjoining -Lee Chadduck, of Skidmore, was room lit with the gas, and at an expense re last week, the guest of his parents, estimated to be about as great, pro--J. R. Nauman, is entertaining his duced an effect that was startling and friend, David Blesser, of Page county, somewhat ludicrous. The red and yellow light of the lamp gave a smoky appearance to the walls and furnishings of the room, while the gas light brought them out in their clear whiteness and natural colors. Great was the wonder to see a flame scarcely as large as a silsiting Mrs. McDermott, of Oregon ver half dollar filling the air with a clear, parvasive light that made it possible to -J. A. Oren was on the Kansas City read or do fine work in any part of the ock yards last week, and bought a room. Not a few admitted that electricity was out done; and all conceded that -Chris. Schlotzhauer, of Cooper the Las light was a fitting chimax of the Zool's remarkably fine residence. Every C. K. Soper, of the Burlington test of the gas under different comparigeneral offices, spent the Sabbath with sons and in different points of view would bring forth new expressions of wonder and delight. Mr. and Mrs. Zook were highly pleased with the new light and expressed a willingness to exhibit the plant to any who wish to see it.

The plant was put in by Mr. Weaver, of Forbes, who was present to answer any questions and to explain the operation of the generator. The gas generafor is the "Trumph," made at Dayton, O. Mr. Weaver has it on trial and has -John Dyke, of Sabetha, Kansas, was not yet made up his mind as to what on the market. He is examining the claims of several makes and, being a at what is probably the best for intend-

rg purchasers to secure. He says:

"Everywhere, here in Oregon, I am ad, "On, we are going to have exciresty," as though that were a certain ong and one that settled the question the use of acetylene gas. You seem to think that Tackio and Savacrah and ther towns about he . are at the top first of the week by the serious illness of of the ladder because they have electric--Uncle Johny Stephenson and his to climb up to where they are. You do than there was several years ago. New, the fact appears to be that, if the city wants to perch on the very top round of it should give electricity the go-by and invest in a plant for the manufacture of acetylene gas. A number of towns are doing this, even near the large cities, where connection with the city electric plants is easily made. Large hotels and other establishments, after receiving generators to be put in the postoffices
